

## Letreros en secuencia

```
#include <stdio.h>
int
main()
{
    printf("hola");
    getch();
    printf("\nmundo");
    getch();
    printf("\nbye");
    getch();
}
```

The screenshot shows a Windows command prompt window titled "C:\Users\Quique\Documents\laboratorio de computacion\lun\FOR IN.exe". The window displays the output of the program: "hola", "mundo", and "bye" on three separate lines. The window has standard Windows window controls (minimize, maximize, close) in the top right corner.
